Mathematics

Year 1 will be working with numbers up to 20 at first and then 50.

Year 2 will be working with numbers up to 100.

- Place Value – Counting, ordering and understanding the value of tens and ones.
- Addition and Subtraction including money.
- Part- Whole models
- Problem solving
- Multiplication
- Number bonds (recall quickly, pairs of numbers which total a certain number)

Children will learn to use manipulatives, draw pictures and models, write and explain to show their understanding. There will be lots of opportunities for challenge in both year 1 and 2.
