Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the availability of accessible information to disabled pupils and members of our school community

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. At Pirton School we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for lifelong learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

Pirton School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in line with the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues. The school supports any available partnerships to develop and implement the plan.

The Accessibility Plan complements and supports the school's Equality Scheme and Equal Opportunities Policy, and will similarly be published on the school website. We understand that the Local Authority monitors the schools activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including staff and governors of the school. External agencies would be consulted if necessary, as and when need arises.

2. Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010. The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer. Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

Priority 1: The school site and accessibility

Summary of school building and grounds (Updated May 2023)

The original school building was opened in 1877 and is single storey containing four classrooms and the Admin and Headteacher offices. There is disabled access to the offices and two of the classrooms. There is a disabled toilet in the main corridor.

The old School House is joined to the school and has been incorporated into the main building. The ground floor accommodates two small group teaching areas, a nurture space and a staff kitchen. The first floor accommodates a staff offices, storage and a small teaching room. There is disabled access to the ground floor of the School House and access to a disabled toilet via one of the classrooms.

A more recent block, built in 1975, consists of a hall, classroom and a kitchen where school meals are prepared. There is disabled access to this building via the school hall. A ramp to the classroom was installed in Summer 2018 and to the rear of the hall. There is a disabled toilet off the school hall.

Two additional stand alone classroom are on the playground. These classrooms are fully equipped for disabled access with a disabled toilet and level access throughout.

There is a level (no steps) hard-surfaced playground between all the buildings and a level tarmac pathway alongside the school field.

Target	Strategy	Outcome	Timeframe	Achievement
